Allied Planes Massing for Attack on Enemy Warships and Transports Huge Japanese Convoy is Moving Toward New Guinea

By DON CRAWELL

ALLIED HEADQUARTERS, Australia, March 2.—Fleets of Allied bombers were believed massing today for an all-out attack on a huge Japanese convoy moving toward New Guinea.

It was the first Japanese move to indicate the reason behind the enemy's concentration of forces in the island north of Australia which had been underway for weeks. It was revealed in an Allied communique today and indicated that the Japanese had been concentrating for offensive rather than defensive action.

The communique said that yesterday afternoon, when the convoy was first sighted, weather conditions were such that an aerial attack of the sort that in the past have wrecked Japanese attempts to reinforce their New Guinea forces, was impossible.

Nazis Don't Like It! Drive on Staraya Russa

NEW YORK, March 2.—(AP)—CBS today recorded a Berlin broadcast in which the spokesman, impersonating an American, discussed the possibility of reprisals by the German air force on New York, Boston and Washington.

The broadcaster said that the United States raids on Germany are "particularly cowardly on the part of America, in view of the fact that our shores are still a safe distance away from air bombs."

"However, we should not forget," he said, "that in consequence of the progress of aviation even New York with its much vaunted skyscrapers, Boston and Washington may not be safe a few months hence."

The broadcaster admitted that the Allied air force is hitting where it hurts by saying that "it is enough to make people sick at the stomach to hear of bombers carrying loads of two-and-fourteen bombs."

Hitler Berlin Night Attack Heaviest Yet Made on City

By SIDNEY J. WILLIAMS

LONDON, March 2.—British and Canadian bombers made their heaviest raid of the war on Berlin last night, smashing at the German capital in a concentrated assault which lasted for several hours.

Nineteen bombers were lost in the Berlin attack and in subsidiary raids on western Germany, the air ministry announced.

The bombers last night in the Berlin attack included two from the Royal Canadian Air Force.

Sgt. Bill Clark, from Vancouver, air gunner, said the first loss was a Heinkel bomber that came under fire from British fighters, the smoke of which obscured the sky for three days.

Returning home, the pilot could not see the way and was lost. Heavier and heavier, the latter was shot down by British fighters. Sgt. Bill Clark, from Vancouver, air gunner, said the first loss was a Heinkel bomber that came under fire from British fighters, the smoke of which obscured the sky for three days.

Copyright, 1943, by British United Press

OTTAWA, March 2.—Cabinet sources relaxed their traditional budget eye tightness of lip yesterday to the extent of indicating that tonight's presentation by Finance Minister Laidlaw will be in the nature of a "normal budget starting from last year as a basis."

That means, the sources who provided this tonight's interpretation, that tonight's program of the finance minister will not be the thunderbolt to individual and corporation taxpayers that last year's budget constituted.

It does not mean, they emphasized, that there will be no adjustment of existing taxes, or institution of new taxes, but simply that such adjustments and new taxes will be of moderate character, having regard to the tempo which taxation already has reached.

To Resign Present Post Mitchell Hepburn Centre of Sensational Political Moves

By B. T. RICHARDSON
Edmonton Bulletin Ottawa Bureau

OTTAWA, March 2.—Mitchell Hepburn, the attorney general of Ontario, is the centre of sensational political developments now imminent and to which the following developments are related:

1.—Mr. Hepburn is resigning immediately as provincial treasurer of Ontario.

2.—He is taking over the role of leading opponent of the King government in Ontario.

3.—He has broken with the Ontario legislature and is drifting back towards an entente cordiale with Ottawa.

3-Year Term Patrick Lynch Sentenced on Fraud Charge

MONTREAL, Mar. 2.—(AP)—Patrick Lynch, president and general manager of Engine Works and Trading, Incorporated, was today sentenced by Mr. Justice Wray to a three-year term in penitentiary for defrauding the federal government and three companies of \$200,000 in connection with war job contracts.

Lynch will serve an additional year in penitentiary should he default in payment of the \$200,000 fine.

A 10-year sentence was imposed on the four men convicted of the charges.

In Tunisia British, Yank Troops Retake Sheila Base

NEW YORK, March 2.—Madame Chiang Kai-shek, who faces a five-week tour of Canada and the United States, went into seclusion today, gathering strength for a speech of mass meeting in Madison Square Garden tonight.

Two American nurses, her Chinese doctor, and her Chinese chief attendant will accompany her.

Red Cross Drive Gets Good Start

TORONTO, March 2.—(AP)—The Red Cross drive across the Dominion indicated a good send-off for the Canadian Red Cross Society's campaign to raise \$100,000 for the war effort.

The drive was launched in Toronto today, with a number of other cities following suit.

Workers Planning Protest Strike on Liquor Regulations

HALIFAX, March 2.—(AP)—The Halifax Trades and Labor Council is seeking to prevent a one-hour strike by waiters of the Halifax Hotel and Casino, which is being held in connection with the closing of liquor stores.

The strike is being held in connection with the closing of liquor stores.

Attacked From Within

Ten minutes after the air attack on the Lexington ended, our fighters and scouts began coming back. They were rearmored and refueled and sent off once more—because we had no assurance there would not be another wave of Japanese planes.

The attack on the Lexington was a surprise. The Japanese had been expected to attack the Lexington, though struck by fire from the Coral Sea, the Lexington was still in the line formation—EDITOR.

Netherlands Sub Sinks Jap Ship

LONDON, March 2.—(AP)—Netherlands submarines operating with the British navy in the far east today sank a Japanese submarine off the coast of Sumatra.

The submarine was carrying a large cargo of war materials.

Cardinal Hinsley Passes Fair Night

LONDON, March 2.—(AP)—Cardinal Hinsley, Archbishop of Westminster and Primate of the United Kingdom, passed a fair night last night, a bulletin from his residence said today.

The cardinal was expected to recover from his illness.

Wanted Ghandi Ends Tomorrow

Exclusive of the Edmonton Bulletin

PAIDON, India, March 2.—Mahatma G. Ghandi ended the last day of his three-week fast in good spirits today and there was every indication that he would survive his passive demonstration against British authority.

The fast was held in connection with the war effort.

Army Staff Assists

Old Political Companions Work Closely With Stalin In Shaping Red Victories

What is the secret of Russia's military success? How was she able to hurl back the German invader? The Associated Press chief of bureau in Moscow, still answers these and other questions tomorrow in his third of a series of news stories. The following is the second. EDVTC.

By HENRY C. CASSIDY

NEW YORK, March 2.—(AP)—Joseph Stalin's old companions in politics, as well as his new soldiers in arms, are working by his side to fashion the victories of the Red army.

Visiting City

The men close to Stalin in wartime form a cross-section of two institutions, the Politburo, the political bureau of the Central Committee of the Communist Party, which guided the Soviet Union in peace time, and the Stavka, or general staff of the Red army.

Together, they make an elite committee. Although the system of political commissars has been abolished, and the commissars themselves have become military officers, the Communist Party men still hold their influence at the top.

SERVE IN FIELD

Three members of the Politburo are in the field. They are: Andrei Zhdanov, chief secretary of the Leningrad district committee of the Communist Party, of whom Stalin is particularly fond. He is in Leningrad, the military capital of the besieged city.

Lazarus Kaganovich, commissar of railways, who is one of Stalin's closest advisers. He is in the Caucasus, on the military council of the southern front. Viktor Kravchenko, secretary of the Stavka, who is in the Caucasus, on the military council of the southern front, and remains in the rear, with the army of the Red army.

Two other Politburo men are doing war work in Moscow. Anastas Mikoyan, commissar of food, who is in charge of the Stavka's food supplies, and the general director of the Stavka's food supplies, and the general director of the Stavka's food supplies.

Alexander Shcherbakov, secretary of the Stavka, who is in charge of the Stavka's food supplies, and the general director of the Stavka's food supplies, and the general director of the Stavka's food supplies.

MOLOTOV "CLOSEST" Yevgeny Molotov, formerly minister of the interior, is one of the other members of the Politburo who is in the field. He is in the Caucasus, on the military council of the southern front.

Of the five original members of the Politburo, only Molotov and Mikoyan remain. The others have been killed or have died. The Politburo is now a smaller body, but it remains the most powerful institution in the Soviet Union.

NAZI ON RAMPAGE A German soldier recently smashed a shop window at "Grabbe" the dispatch said, "troubled" the German soldier who tried to stop him. The German soldier who tried to stop him.

It was reported that at least three concentration camps in Germany have been constructed in northern Norway. Germans laboring outside their camps have been seen passing Norwegian cigarettes.

In Telegram, reports of southern Norway, at Bjerkedal, the Soviet Union has been seen passing Norwegian cigarettes.

The saboteurs were believed to have been Norwegian. They were seen passing Norwegian cigarettes.

Ribbentrop, Duce Confer in Rome NEW YORK, March 2.—(AP)—Hitler sent Foreign Minister Ribbentrop to Rome for a five-day conference with Mussolini at which "complete agreement of views" was reached on direction of the war and political developments. Axis reports said yesterday.

As reported by The Associated Press in New York, its enemy counts said the Italians agreed at the bidding of Hitler's envoy to meet with Germany's Foreign Minister "until final removal of the deadly danger of Bolshevism in Europe and complete annihilation of enemy forces."

London interpreted the conference as an effort to dispense any Italian thoughts of separate peace with Germany. German reports said the conference was presided over by Germany's junior partner.

Belgian Patriots Week Troop Train Killing 100 Nazis LONDON, March 2.—(CP)—The Moscow radio, in a broadcast received here by the Soviet Union, said last night that Belgian patriots were killing a German troop train near London, killing more than 100 soldiers.

In Antwerp a group of armed Belgians forced their way into a German headquarters and killed several Germans and seized private documents, then blew up the building, the broadcast said.

Spellman to Leave Vatican Wednesday LONDON, March 2.—(CP)—A D.N.B. dispatch from Rome said that Spellman, archbishop of New York, is expected to leave the Vatican tomorrow for a plane trip to Algeria by way of Seville, Spain.

Flower of Death

Four Airmen Laid to Rest After 5 Days Are Rescued

CAPE TORMENTINE, N.R. March 2.—(CP)—After drifting five days on a sea of ice in the wintry waters of Northwestern Canada, four crew members of a crashed R.C.A.F. bomber were rescued yesterday here.

The four men parachuted into the strait last Wednesday night after their two-engine bomber crashed on the ice. The four men had been abandoned in mid-air.

The aircraft was the one which crashed on the ice. The four men had been abandoned in mid-air.

Regulations forbid individuals sending newspapers overseas. The Edmonton Bulletin prints the news of the week in letter form. This letter covers the week from February 23 to March 1. Clip it out and send it to your loved ones and friends.

Capl. Webber, No. 3 "M" Depot received the wireless officer's permit.

In a further effort aimed at a fairer and more equitable distribution of available stocks of liquor, beer and wine, and to prevent as far as possible, illegal practices, new regulations governing purchases through permit at the government liquor store in Edmonton, Alberta, will become effective March 1. The regulations are as follows: All applications for permits to purchase liquor must be made at the government liquor store in Edmonton, Alberta. The permit must be obtained from the government liquor store in Edmonton, Alberta. The permit must be obtained from the government liquor store in Edmonton, Alberta.

N.H.L. hockey results last night were: Rangers 7, Chicago 4; Canadiens 4, Detroit 2.

Saturday Premier Acheson, in a stirring address to the Alberta legislature Friday afternoon, said the government's promises made after he had taken the oath of office, and the promises made after he had taken the oath of office, and the promises made after he had taken the oath of office.

Construction of the 300 houses to be erected in Edmonton's wartime housing plan, will probably start in April. Mayor John F. Boyd told council members of the Edmonton city council that the Dominion company would agree to erect the houses. The houses would be erected in Edmonton's wartime housing plan, will probably start in April.

BEAR-CREEK, Mont., March 2.—(AP)—Hopes for 60 miners entombed in a gas-filled labyrinth of coal mine Saturday flickered last night as rescue work, in its third day, proceeded slowly.

Immediate action will be urged on the Dominion company to create more jobs. The Dominion company would agree to erect the houses. The houses would be erected in Edmonton's wartime housing plan, will probably start in April.

Details of Battle

Chance Meeting Doomed Cruiser Sydney, Raider

NEW YORK, March 2.—(AP)—On Nov. 19, 1941, the Australian cruiser Sydney, a flaming, shell-battered ship, disappeared over the horizon after a chance meeting with what seemed to be a harmless merchantman cruising in the South Pacific. The entire ship's company of 645 men vanished with the Sydney.

The cruiser went to her death at the hands of the Kormoran (also known as the Stearns and "No. 41"), a 3,000-ton raider. A detailed story of how she met her death was told yesterday by reports of Captain Delaney of the Kormoran and by others of the survivors of the Sydney.

The Kormoran was cruising 200 miles off the coast of Australia when she sighted the Sydney which signalled with a daylight lamp. The raider in "hot" zone of the Sydney's searchlight.

The Sydney came aboard about 1200 to 1300 yards from the raider. The Sydney's searchlight struck the raider's engine room and fuel tanks. Fire spread over the raider. The raider in "hot" zone of the Sydney's searchlight.

"The landlord's right here, and he says what's a little leak

in our attic when our soldiers are getting soaked to the skin every day in the tropical storms!"

icy of Conservatives

don's references to the war were brief and formal, a sort of clearing of the decks for the real business

of the party. Much of this real business concerned farm prices and the agricultural industry. The views of the party in this regard are important because they may well result in a progressive, perhaps speedy, weakening of the declared that the inflation of the last war is greatly to be preferred to the anti-inflation measures of this war.

Agriculture, said Mr. Senn—answering his words at page 2 unequivocally—Hansard should be studied carefully.

Mr. Graydon accused the government of permitting manpower to drift out of agriculture. There were many who thought that agriculture is becoming a war casualty—which he deplored. The farmer felt that he was the forgotten man in Canada's economy. The injustices to agriculture, he said, must

Mr. Graydon was shocked by the rationing of butter. "Every butter ration coupon that is handed to a grocer is mute but irrefutable evidence of faulty planning by our

agricultural and our wartime price boards." And, again, "raising the last refuge of governmental inefficiency." There was no reason to wait until after the war to remedy the injustices under which agriculture languished.

☆☆☆☆

The price ceiling was then installed as having failed; as being un-

income should be divided on a population basis among the various classes of producers. The law of supply and demand, the saleability of a product, counted for nothing.

☆☆☆☆

The new formula was repeated over and over again by Conservatives in the course of the

just to farmers, price control was restricting output. He compared Canadian prices with U.S. and United Kingdom prices. Canada's mission, he said, "was to feed a war-torn hungry world to which peace will have to come." Thus, Mr. Graydon was thinking in post-war terms: our wartime farm policy

Sunbury, page 466; Dr. H. A. Bruce of Parkdale, page 483; C. S. White of Hastings-Peterborough

ing "a ridiculously low and inadequate share of the national income."

The national income in 1942 was \$7,500 millions; agricultural income was \$866 millions. The argument is made that if the farmer's share came to be about a parity price plus one and a fair share of the national income for the farmer."

The official Conservative policy, which with respect to wheat has been outlined by Mr. Graydon, is to pay \$1.19 per bushel for export quality wheat in a resolution calling for \$1.19 per bushel for exports.

☆ ☆ ☆ \$1.25 per bushel for domestic sales.
In the resolution he describes these prices as "a first step to

The new formula was explained in detail by Mark Senn, Conservative member who took over the agricultural credit of the party. Mr. Senn is not an irresponsible member. He is a well-known rancher with long experience in public life and would be an obstacle to any radical change in agriculture in a Conservative government. Mr. Senn argued Feb. 21 that food prices were not too high and that any effort as any other production. Yet the government is handicapped by the fact that there is a shortage should be repaired and farm prices raised. He suggested the price of wheat should be raised to wards establishing a parity price for wheat, indicating that the trust in the market was not too high. With few exceptions, even Conservative member who took over the agricultural credit of the party was opposed to the price ceiling and in favor of higher prices for food. The Conservative government's national income formula was the most favored method of determining the price of food. The most agreed that "parity" was the best method of determining the price of food.

ceiling because it did not give farmers "parity prices." High food and therefore may be assumed to be in agreement with the party.

In Buenos Aires

By ALLEN HADEN IN OTTAWA
JOURNAL

Mayo, Buenos Aires, by interplanetary parachute, a man from Mars would never believe a world

On the surface one sees but the usual Argentine bustle of traffic, new buses fanning the coat-tails of deliberately provocative pedestrians, taxis plowing through more people than ever clogging the streets. At the American Club,

men have grown a little more fat, florid and flourishing.

An Argentine complains of gas rationing and then explains that basic rationing amounted to about 50 gallons for three months. The catch is that as soon as gas rationing was announced all motorists tried to get a higher rating than they were entitled to.

around loose that there's a boom-town aspect to all Buenos Aires. Refunding of Buenos Aires city

bonds was over-subscribed in four hours. The favorable balance of trade has jumped 142 per cent

and amounts to something over \$100,000. Exports not only are up 22 per cent in value but there wasn't a paper to be bought within a few minutes of their appearance on the streets.

Compensation Is Discussed In Legislature

Continued from Page Nine

dent can be cut 30 per cent, added, stating the indirect cost of such accidents was greater than the direct cost to the compensation board.

INDUSTRY WARNED

He said industry had been warned in 1932 that it should get ready for the day when medical aid contributions from workers would be abolished, and the medical aid

fund would become a direct levy on industry. This was recommended in the committee's report, and will involve an annual sum of \$400,000 being lifted from the shoulders of workers.

The proposal will be vigorously opposed by industry. Dr. Robinson warned. He said of 56 compensation acts operated in Canada and the United States, only three of them require a levy from workers. The speaker said "we have been out of line in assessing our workers' costs per day for the medical aid fund."

Referring again to the proposed shift of the medical aid fund to industry, he said one of the easiest ways industry could meet this load would be to cut down the number of accidents.

Another change recommended by

the investigating committee was reduction of the number of accidents brought within provision of the Act by disabling compensation directly attributable to the workman's occupation.

CONCLUSIONS UNANIMOUS

Conclusions of the committee were unanimous, the chairman reported. There were 36 recommendations contained in the report, which was tabled at the beginning of the session.

This was done deliberately, Dr. Robinson said, to give members of the legislature time to study the report thoroughly, before it came up for discussion.

Other recommendations he described briefly were removal of present discriminations against Canadian workers, in some in-

tries; change of method in reporting accidents; putting a human element into dealings of the compensation board; and a scheme for making use of partially disabled workers.

At the conclusion of his address Dr. Robinson was asked by A. J. Morrison, Labor, to state the number of recommendations in the report which will be embodied in the supplying of either the compensation Act.

"Dr. Robinson replied, 'that's a military secret'."

The debate was adjourned by the speaker, before it came up for discussion.

He will speak Tuesday on the report of increase of the railway

midsummer peace the deeper and midwinter loneliness on the prairie farms and in little towns, less hard to bear.

And they shall all be bound to the cars and hearts of boyhood: 'O'er the hills and far away'."

The passing of the train and the train whistle would indeed be an occasion of mourning to most of us. There's romance, mystery and sweetness in the distant organ tones of a locomotive whistle.

Yet, some Edmonton officials think whistling in the city should be eliminated.

Debate on the budget which was brought down in the legislature Monday afternoon by Hon. Solon Low, provincial treasurer, will start Wednesday afternoon, when J. H. Walker, Independent, Warner chairman of the Independent caucus, delivers the main opposition address.

It was agreed by the house Monday on the suggestion of J. H. Walker, N.C., Independent leader, that the 40 minute time limit on private members' speeches be maintained.

In the case of Mr. Walker, however, he needs longer for his address.

The time limit was waived last year, when the late D. M. Dugan delivered the main opposition address.

CITY FIREMEN

Answer 3 Calls In 14 Minutes

Edmonton firemen had no less than three calls in 14 minutes on Monday evening. At 5:55 a rubbish fire at 9817 107 street gave a run at 5:59 a truck took fire opposite the Snowflake Laundry. Two minutes later at 6:09, fire in a street car at 48 avenue and 109 street was responsible for the third alarm. Little damage was reported due to any of the fires.

House Welcomes Member for Edson

A hearty welcome was accorded Angus Morrison, Labor, Edson, Monday afternoon when he came into the legislative assembly for the first time this session. Mr. Morrison, whose home is in Calgary, has been absent from the legislature for a period of some months.

Members pounced their desks for a prolonged period when he came into the legislative assembly and took his seat, at the left of the opposition benches.

Another member who has been absent since the opening of the session is J. J. Bowlen, Liberal, Calgary. It is expected he will arrive shortly.

Absent from Monday's sitting was Alfred Speakman, Independent, Red Deer, who is reported to be ill.

Speakman was to second the motion of Dr. J. L. Robinson, for adoption of the report of the workers' compensation committee, but in his absence, it was seconded by Frank Laus, Independent, Banff-Cochrane.

ONE-EYED MASK

Wearing a monocle or eyeglass is a great help in acquiring a "poker face," as the effort of holding it in position makes the expression.

Real Credit of Country Is in Ability to Produce Peoples' Goods, Services

Declaring that the credit of society arises from the belief that all persons share, namely, that by co-operation together in association they may obtain the results they want and which would be otherwise impossible to gain, Premier William Aberhart, in an address Monday night, stated that the real credit of a country is its ability to produce goods and services for its people.

The Premier chose as the theme of his address "The Real Credit of the Country." He attacked the present money system, declaring that "a nation-wide system of being perpetuated upon the people under our present private money—controlled money."

The complete text of his address follows:

I want to begin my discussion on this occasion by quoting from one of the hundreds of letters which are being sent in from many parts of Canada. This correspondent writes in Port Arthur, Ont. He has served in the Royal Navy and in the merchant navy and he has seen the experience of being torpedoed several times during the war. He writes:

"I saw the aftermath of the last war. I have seen the men who so nobly served this great Dominion, tramping the highways, cast off as I were, by the very men who today are asking all loyal countrymen to step into the breach in the common fight. . . . Mr. Aberhart, we must not allow these things to take place again. That he said a little later in his letter. We may not have the German Gestapo to check us in, but even here we have men who today are willing to betray their very birthright for a morsel of money, such as is often offered to ward-bearers, and political backstabbers. (You scratch my back and I'll scratch yours.)"

This correspondent asks what he can do to help. The Premier's answer to this question is one which should concern everybody and so I propose to spend a minute or two giving my views. Please allow me two minutes if you will.

BITTER EXPERIENCE

You must all have learned by bitter experience that the old party political system has not, and cannot, serve democracy. Regularly every three or four years, the people have elected first one party, another political party to parliament, and the results have been the same in every case. Poverty, insecurity, increasing debt and taxation, and more bureaucracy. Far from obtaining government in accordance with the will of the people, Canadians consistently have had to suffer the results they did not want. Their policies were made from the mark and did not seem to remove our difficulties.

To be fair, I should say that this state of affairs was not the fault of the old party system alone. It was also the fault of the old party system alone. It was also the fault of the old party system alone. It was also the fault of the old party system alone. It was also the fault of the old party system alone.

I claim, therefore, men and women, that there is little use in pinning our faith to anything which has been so completely discredited and which has proven itself so utterly inefficient and unworkable as the old party system.

ONLY ONE WAY

I assert without fear of contradiction that there is only one way in which we in Canada can ensure that we shall get a proper functioning democracy here as the basis of the post-war order.

The people must realize their responsibilities, analyze the whole situation, and begin organizing. Un-til, and until, they are organized, the people will be helpless to get the reforms they need so urgently.

And how are you going to do it? The suggestion I have to make is this: You must have every district you should pick out a man of high character and integrity—a man with courage and conviction—a man who is willing to serve you. Send his name to us so that we can let him have the direction he needs in order to give you leadership and information. Then increase your numbers until you can speak with influence in your neighborhood.

It will require 500 such men across Canada—500 honest, able, progressive and fearless men who are prepared to stand shoulder to shoulder for the common people and to work together as a team.

Is that asking too much? Can you keep your minds from being lulled by the fact that you are not one or two honest men in your district? Of course you have. Well then, go—a number of you—and talk the matter over with them, and let us have their names as soon as possible. That will give us a start.

I find that in many of the letters

this so-called credit which allowed us to do deeper in debt.

Now, good friends, I have given you these examples of the loose use of the word "credit" to show you how easy it was for the money power and the media to mislead people when they called "Social Credit" suddenly sprang into existence.

Now please follow me carefully. This "social credit" is the credit of the society, has to do with belief. You see, credit comes from the Latin word "credere," to believe. And the credit of society arises from the belief that all persons share, namely, that by co-operation together in association they may obtain the results they want and which would be otherwise impossible to gain.

Now, this "social credit" is the credit of the society, has to do with belief. You see, credit comes from the Latin word "credere," to believe. And the credit of society arises from the belief that all persons share, namely, that by co-operation together in association they may obtain the results they want and which would be otherwise impossible to gain.

New Equipment Will Be Needed For Tram Lines

Expansion of patronage on Edmonton's street railway system will require extra equipment to handle during 1943 if the present rate of increase is maintained.

Street railway superintendent Thomas Ferrier stated Tuesday, as he announced the results of his survey, that the street railway has been added to the Dominion transit corporation for priority for the supplying of either trolley cars, gasoline buses or street cars for the system.

Last year six trolley buses and a rebuilt street car were added to the system's facilities. Three of the trolley buses were purchased from Britain, and three in the United States for a Canadian automobile firm.

Mr. Ferrier expressed the hope that some vehicles would be available this year. City Commissioner R. G. Gibb said that further representations were being made to the transit controller concerning the granting of priorities.

During 1942 the street railway department spent \$112,576 from renewal account in the purchasing of new equipment. Of this amount

you must surely agree then, that real credit of a country is its ability to produce goods and services for its people. It is consumption which we can, the people must have if they are to live. Of course, of course!

In our complicated economic system, we measure things in terms of money. Real credit, the true wealth of a country, when measured in terms of money is what we call financial credit. When we talk of the banks creating credit, we really mean that the banks are creating credit—this is in other words that they are creating the credit of the country.

We do not mean that they make the goods and services. When the banks create credit, they are creating credit—this is in other words that they are creating the credit of the country.

We do not mean that they make the goods and services. When the banks create credit, they are creating credit—this is in other words that they are creating the credit of the country.

BARBED WIRE and enemy guards "do not a prison make" for Canadian soldiers captured by the enemy. Their thoughts, winging across the sea, meet Red Cross parcels on their way to them.

Last year, the enemy said "pass" to 2,000,000 such parcels. They were packed with 22,000,000 pounds of food and comforts welcomed by men to whom the bare necessities have become luxuries.

But, most of all, to each prisoner

WITNESS TO A CRASH
VICTORIA, March 2 — (CP)—Sale of motor licence plates up Saturday, the deadline for using 1942 plates, was off 18 per cent compared with last year, provincial police headquarters said yesterday. Plates up to Saturday brought in \$656,000, compared with \$800,000 last year, but police said a drop of at least 30 per cent had been expected because of gasoline and tire restrictions.
